1.1 CARKNOCKER FONT

CARKNOCKER Font

THIS IS A FREE FONT. IT CANNOT BE SOLD BY ANYONE.

1.2 USAGE:

The original purpose of the font was to capture some nice, clean stencil lettering used by some American and European railroads.

NOTE:

*While working on this font, I realized that the well known carknocker "**Conrail Twitty**" was no longer with us (R.I.P.). I had been collecting images of his chalk work recently and this seemed a fitting opportunity to commemorate his passing by preserving some of his documented carknocker sketches.*

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\CARKNOCKER.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**CARKNOCKER.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.

2.2 Key Mapping

The TTF font file contains the following, numbers 0-9:

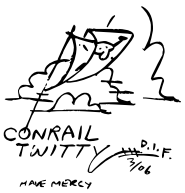

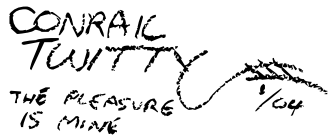

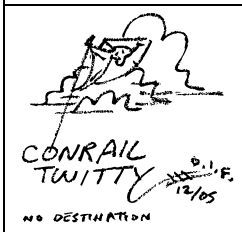

0123456789

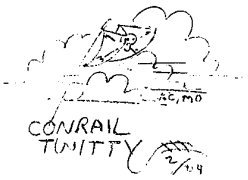

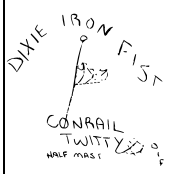

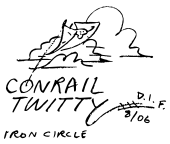

UPPERCASE/Lowercase Letters are Normal Alignment and identical:

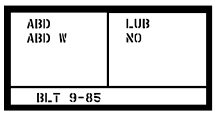

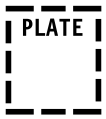

UNION TANK CAR

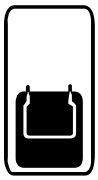

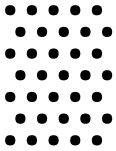

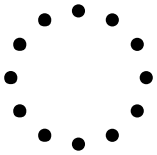

This font contains glyphs useful for adding Carknocker markings as well as some standard items, such as Lube Plate, GE louvers, latches, grates and lift pins.
