1.1 CHESCAT LOGO FONT

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD BY TKW/RailSimStuff OR ANYONE ELSE.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\CHESCAT.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**Chescat.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.

2.2 Special Keys

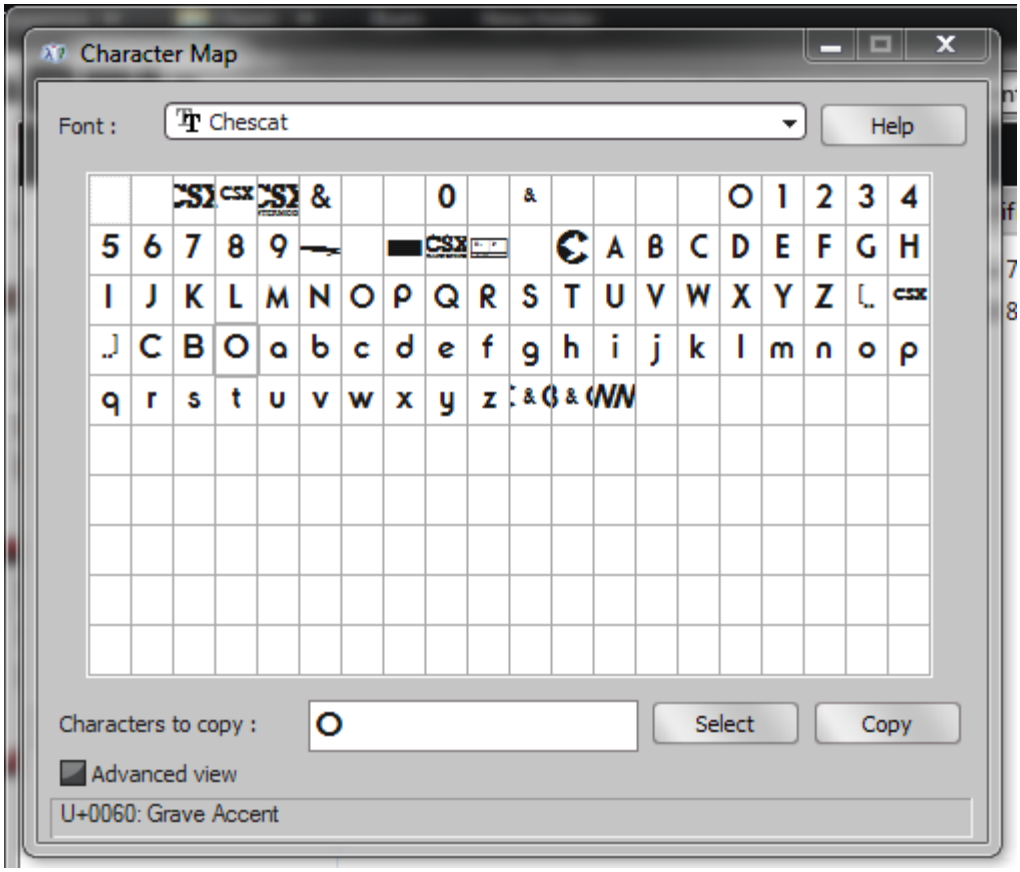

The Numbers included match the style used on "some" Chessie System Diesels and Rail Car reporting marks.

Note: When using "decal" fonts like those developed at railsimstuff.com, it is often quite helpful to open the Character Map tool to assist with locating the right symbols you need to be working with.

It allows you to select and copy paste or even to know the correct keyboard shortcut to insert the one you want.

2.2.1 Permission

This font may be used without permission by the TKW/RailSimStuff development teams only, as well as any person(s) that the TKW team has a cooperative agreement with. It may not be edited, altered, or manipulated in any way, or used in part or incorporated into any other commercial graphic material without approval.

If you use this font in developing Railroad related artwork, I would appreciate knowing about it.
