1 BACKGROUND

1.1 CUSHIONBOX Lettering font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD.

This is a BETA release font. Essentially, it is not a completed project.

This font is a BOXCAR lettering font for 'cushioned' boxcars using examples from Pictures and Models. Most of the lettering is related to EVANS AIR-PAK Boxcars of the 1960's and 1970's.

Note: The "Damage Free" variants are Car-Pak(CP), DF B, DF and LD.

Things here could be very wrong or slightly off… so remember… this is a living item, not cast in stone. Feedback is welcome.

1.2 Why CUSHIONBOX?

This font is the result of a request at Trainsim.com.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\CushBox.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**CushBox.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.

3 Font Usage:

There is no lettering. This is a SYMBOL ONLY font.

Numbers: (font size 48)

Note: For General EVANS Products Lettering, use the font:
