1 BACKGROUND

1.1 DHFREIGHT Lettering font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD.

This font was created from web picture archives of Delaware & Hudson Boxcars.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START →**

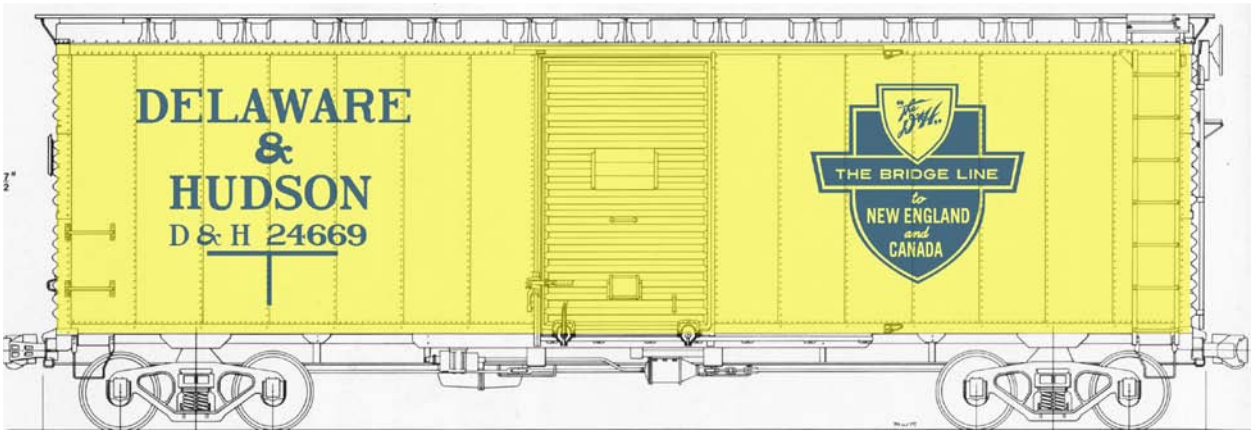

Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT

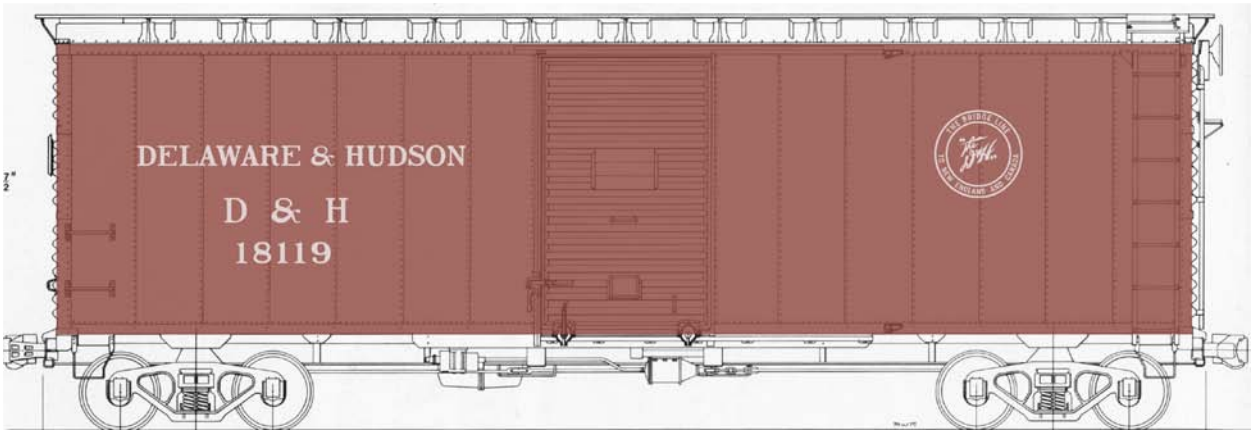

From here you would select your new file **C:\temp\DHFREIGHT.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**DHFREIGHT.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.

Example:

3 Font Usage:

The UPERCASE glyphs are Monospaced for reporting marks, Lowercase is for Road Name lettering. Use Numbers with Uppercase glyphs for best results.

Note: D&H Freight cars mostly use a variant of a Roman influenced font for general lettering. (Many railroads do, actually, though DH letters are more subdued and less stylized than most.) The @ glyph is a BOLDED Ampersand as some were seen to be that way.

UpperCase: (font size 48) Reporting marks - Monospace

ABCDEFGHIJ
KLMNOPQRS
TUVWXYZ

LowerCase: (font size 48) – NAME – Proportional & Bold

ABCDEFGHIJK
LMNOPQRSTUV
WXYZ

Numbers: (font size 48) - Monospaced
