BACKGROUND

The KCS2 lettering font

This is a free font and cannot be sold or be part of a commercial product.

This latest revision to the KCS2 lettering adds numerous items related to Kansa City Southern and related Mexican railways.

This font is based on data collected related to the Kansa City Southern and related railroad diesels and some freight. This font is not considered to be official, just a close "likeness".

This font supersedes any previous Kansa City Southern related font published by RailSimStuff.com.

Disclaimer

This ttf font is a best effort attempt at recreating a vector based image suite related to Kansa City Southern. Some variances exist in real life and therefore there may be some discrepancies between what is supplied here and actual prototype references.

Font Usage

Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like `C:\TEMP`. (I'll assume that you used `c:\temp` from here on…)

You can often just double-click the TTF file and the system will provide an install option.

Now you can install the font from the Windows `CONTROL PANEL`.

Your system may be different, but for Windows 7, you would select START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT

From here you would select your new file `C:\temp\`**KCS2**

That's it, the font is installed.

As with all other TTF fonts on your system, the KCS2 file enclosed within the ZIP file belongs in the FONTS folder of your windows operating system. This is the only way this file would be useful.

Letter Set

Numbers

0123456789

Shifted Numbers

0123456789

Hold SHIFT KEY and press the number you want.

Letter Mapping

The items below are the logo styles used by Kansa City Southern (as well as related mergers and acquisitions) and the keys to use that insert them.

Result	Key	Description
FERRO SUR	A	Ferro Sur logo
	B	Ferro Sur Squiggle
C	C	C in KCS logo
FERROSUR	D	FERROSUR in FerroSurRoca
ROCA	E	ROCA in FerroSurRoca
F	F	F in Large TFM logo
	G	Background for Gateway Western Logo (Yellow)
	H	Gateway Western Logo (Black)
	I	FerroSur Cab Logo
Ferrosur	J	FerroSur Body Logo
K	K	K in KCS logo
	L	Rectangle Background

Result	Key	Description
	M	`M` in Large TFM logo
	S	`S` in KCS logo
	T	`T` in Large TFM logo
	a	`Stop sign` Background (Red)
	b	KCS stop sign Logo (White)
	c	KCS de Mexico stop sign logo (White)
	d	N de M variant 1
	e	N de M Flag Logo
	f	TFM Flag Left side (Green)
	g	TFM Flag Right side (Red)
	h	TFM Flag Background (optional)
	j	N de M Variant #2

Result	Key	Description
	k	N de M Squiggle (caboose variant)
	l	N de M Squiggle `Unir Servir`
	m	Ferromex Cab Logo
	n	Ferromex Body Logo
	o	GATX de Mexico
	p	Nafta Railway (KCS SD50 #2000)
	q	Panama Canal Background (Red)
	r	Panama Canal Logo (White)
	t	small `TFM` for flag (optional)
	u	Tex Mex Background (Red)
	v	Tex Mex Lettering (White)
	w	Tex Mex Texas Star (Blue)

Result	Key	Description
	x	Tex Mex Texas Shape (Yellow)
	y	Tex Mex Texas shadow (Red)
	z	Tex Mex Texas Star Fill (White)
	<	N in N de M
	=	DE in N de M
	>	M in N de M
	|	SMALL circle background

Special Keys

Some Logos require a multi-glyph composition to create the final image.

Special Keys Usage

The use of the special keys allow for multi-color logo's, such as:

TFM Flag

To Create the TFM Flag Logo, use the following keys and colors to assemble the logo. With careful placement and alignment, it should end up looking pretty good.

1. Enter `f` in Green
2. Enter `g` in Red
3. Enter `t` in Gray (optional)

If you need a background color for the flag, use the `h` key.

Texas Mexican Railway Logo

This is probably the trickiest logo I've tried tio recreate. To create the Texas Mexican Railway logo, use the following keys and colors to assemble the logo. With careful placement and alignment, it should end up looking pretty good. You will need to use a high size value to get good results.

1. Enter `u` in red
2. Enter `v` in white
3. Enter `w` in blue
4. Enter `z` in white
5. Enter `x` in yellow
6. Enter `y` in red

Other special combinations should be fairly obvious, such as placing the Red background for the red stop sign logos and the yellow background for the Gateway Western logo

Permission
