LETTERING MANUAL - MISCELLANEOUS SYMBOLS

Pete Willard

BACKGROUND

The MySymbols lettering font

Release 1.0 - 11/12/2023 - (c) PKW

This is a free font and cannot be sold or be part of a commercial product.

This font is based on data collected related to some freight car and engine examples. This font is not considered to be official, just a close "likeness".

Disclaimer

This ttf font is a best effort attempt at recreating a vector based image suite related to miscellaneous logo's and markings. Some variances exist in real life and therefore there may be some discrepancies between what is supplied here and actual prototype references.

Font Usage

Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like `C:\TEMP`. (I'll assume that you used `c:\temp` from here on.)

You can often just double-click the TTF file and the system will provide an install option.

Now you can install the font from the Windows `CONTROL PANEL`.

Your system may be different, but for Windows 7, you would select START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT

From here you would select your new file `C:\temp\`**MySymbols**

That's it, the font is installed.

As with all other TTF fonts on your system, the MySymbols file enclosed within the ZIP file belongs in the FONTS folder of your windows operating system. This is the only way this file would be useful.

Letter Set

There is a general lettering set included that is similar to the swiss style font commonly used in the US Rail industry due to its high visibility.

Much of the general lettering is pretty much a match to the standard Helvetica style font commonly used in the US Rail industry.

Lowercase

ABCDEFGHIJKLMNOPQRST UVWXYZ

Numbers

Numbering that I call New England Style (seen on Massachusetts signage)

0123456789

Special Keys

The items below are the logo styles used by Miscellaneous (and predecessors) and the keys that insert them.

Result	Key	Description
	+	DM&E Logo
	-	ARI Logo
	. 'period'	EMD Builder Plate
	/	Railex Logo
