BACKGROUND

The Barme Regular lettering font

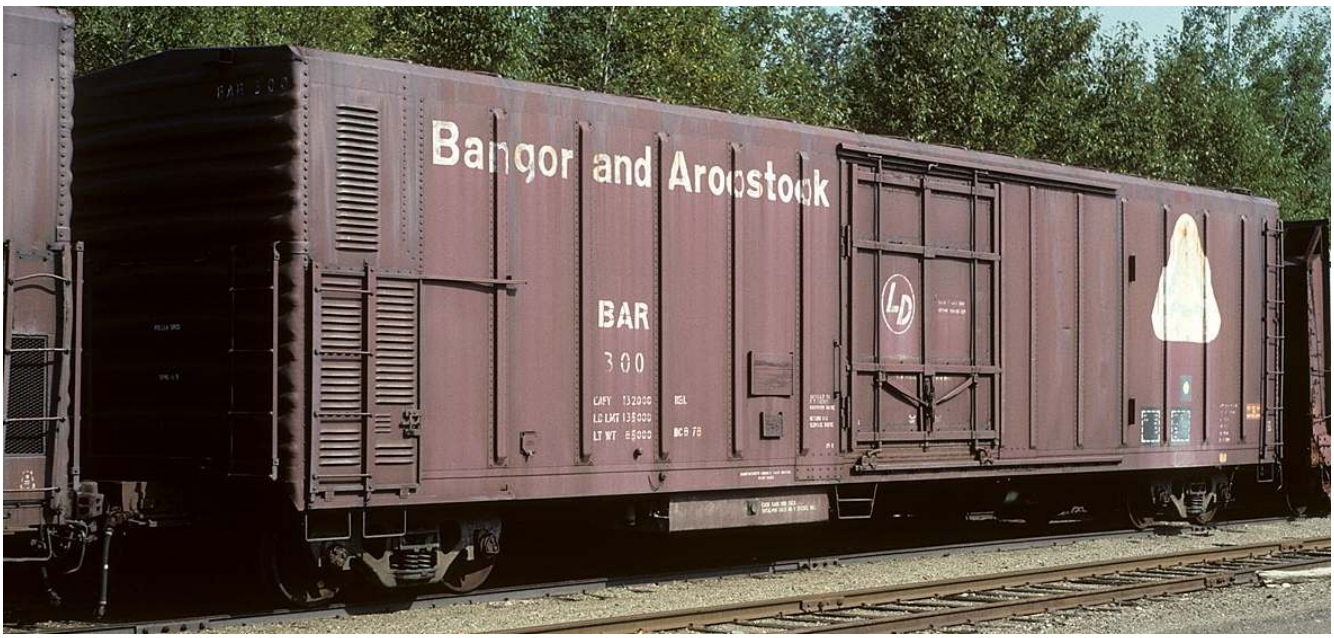

Release 1.0 - 11/12/2023 - (c) PKW

This is a free font and cannot be sold or be part of a commercial product.

This font is based on data collected related to some freight car examples. This font is not considered to be official, just a close "likeness".

This is not a full example of Bangor and Aroostook Railway lettering. It represents the ones I've been able to find readable examples for. This is a work in progress.

Disclaimer

This ttf font is a best effort attempt at recreating a vector based image suite related to Bangor and Aroostook Railway. Some variances exist in real life and therefore there may be some discrepancies between what is supplied here and actual prototype references.

Font Usage

Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like `C:\TEMP`. (I'll assume that you used `c:\temp` from here on.)

You can often just double-click the TTF file and the system will provide an install option.

Now you can install the font from the Windows `CONTROL PANEL`.

Your system may be different, but for Windows 7, you would select START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT

From here you would select your new file `C:\temp\`**Barme Regular**

That's it, the font is installed.

As with all other TTF fonts on your system, the Barme Regular file enclosed within the ZIP file belongs in the FONTS folder of your windows operating system. This is the only way this file would be useful.

Letter Set

There is a variant of lettering style that is heavily bolded… here is an example below.

Much of the general lettering is pretty much a match to the standard Helvetica style font commonly used in the US Rail industry.

Bangor and Aroostook Railway had a tendency to use different shaped R and S letters.

Note: For the modern "Bangor and Aroostook" lettering, ~after 1972 or so, the best match that I can find is the freely available GOOGLE FONT "Barlow Bold".

Example:

Bangor and Aroostook

Uppercase

ABCDEFGHIJKL MNOPQRSTUVWX YZ

S

Alternate S

Numbers

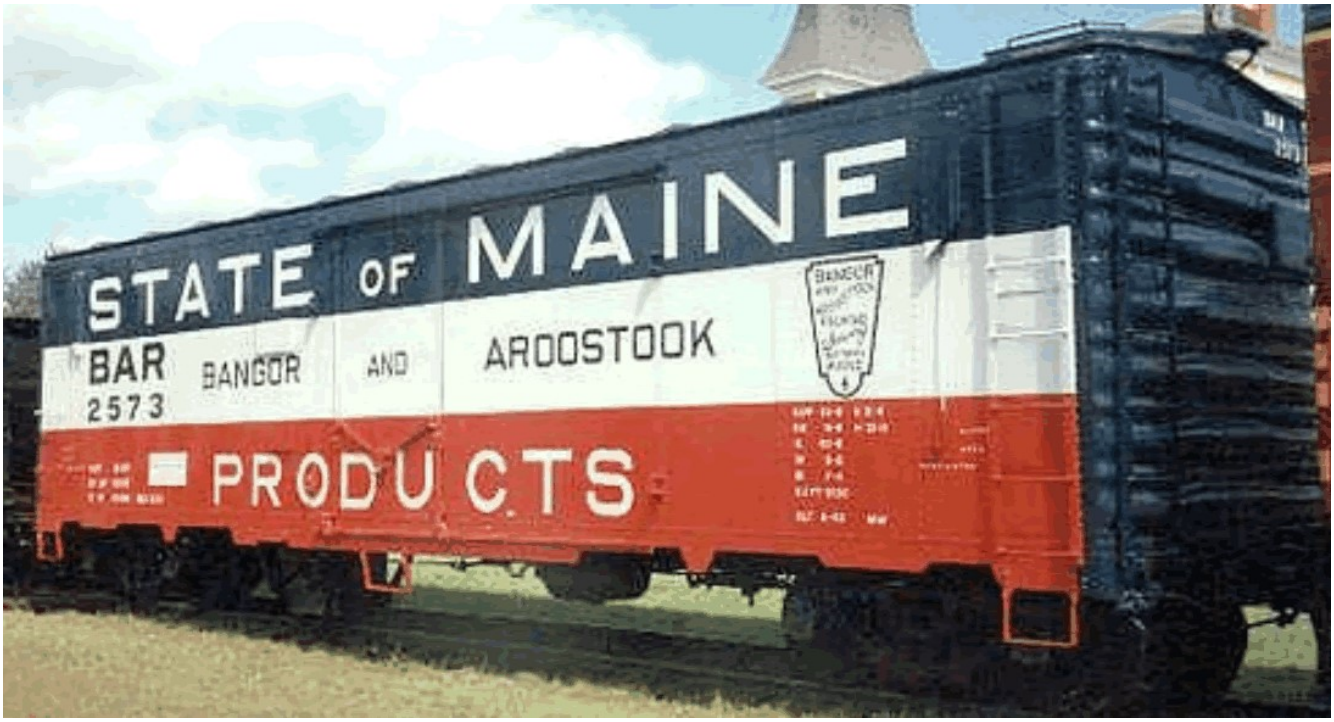

Modern Diesel Numbers and **some** car numbers from the 1960's.

0123456789

Additional number Set

0123456789
