1 BACKGROUND

1.1 BNSF DEMO/LOGO FONT

BNSF SD60MAC Demonstrator Font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD BY ANYONE.

This font is a symbol and number font and does not contain a standard alphabet.

The original purpose of the font was to letter the BNSF SD60MAC EMD demonstrator units; however, it was further developed to provide for variations in the lettering schemes used by BNSF during transitional schemes.

It also includes the ability to create some legacy lettering and numbering based on original Burlington Northern and CB&Q era.

NOTE: This font completely replaces the prior RRATSF.ttf font. The font with that name is no longer needed and has been retired by the author.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\Bnsfdemo.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**Bnsfdemo.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.
