1 BACKGROUND

1.1 ELLSWORTH FONT

ELLSWORTH Font V2.0

The original purpose of the font was to capture lettering used by the USA based St Louis San Francisco Railway on many hopper cars. This work is based on Photographs.

NOTE:

This is not a definitive example of all of the lettering used by the St Louis San Francisco Railway Company (AKA FRISCO). This Trademark is now owned by BNSF Railway. They may choose to restrict permission to use these symbols at any time in the future.

Any mistakes or omissions should be sent to pete@railsimstuff.com

THIS IS A FREE FONT. IT CANNOT BE SOLD BY ANYONE.

2 USAGE

2.1 Installation (Windows XP Example)

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\ELLSWORTH.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**ELLSWORTH.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.
