BACKGROUND

The GNRR lettering font

This is a free font and cannot be sold or be part of a commercial product.

This font was created using references from the Internet. It is based on various sources related to Google searches.

This set lettering tries to capture the Georgia Northeastern & Patriot Rail logo's and lettering.

BONUS

The font also includes a multicolor logo for Patriot Rail, the current operator of the the GNRR.

Disclaimer

This ttf font is a best effort attempt at recreating a vector based image suite related to Georgia Northeastern & Patriot Rail. Some variances exist in real life and therefore there may be some discrepancies between what is supplied here and actual prototype references.

Font Usage

Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like `C:\TEMP`. (I'll assume that you used `c:\temp` from here on…)

You can often just double-click the TTF file and the system will provide an install option.

Now you can install the font from the Windows `CONTROL PANEL`.

Your system may be different, but for Windows 7, you would select START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT

From here you would select your new file `C:\temp\`**GNRR**

That's it, the font is installed.

As with all other TTF fonts on your system, the GNRR file enclosed within the ZIP file belongs in the FONTS folder of your windows operating system. This is the only way this file would be useful.
