1 BACKGROUND

1.1 NJT font

PLEASE NOTE: THIS IS A FREE FONT. IT CANNOT BE SOLD.

What is NJT?

NJT primarily uses the common "SWISS" style lettering.
The NJT Trademarks are based on data retrieved from Fallen Flags Photographs and the US Patent and Trademark office records (Trademark search), a tool I often use.

Please Note: This is not a complete letterset and it lacks some common items while replacing some common symbols and punctuation.

2 USAGE

2.1 Installation

The file is distributed as part of a ZIP file that includes this document as well as the font itself and other related documentation.

The files need to be UNZIPPED from the distribution file into a temporary work area, like **C:\TEMP.** *(I'll assume that you used c:\temp from here on…)*

Now you can install the font from the windows **CONTROL PANEL**. Your system may be different, but in many cases you would select **START → Settings → Control Panel → FONTS → FILE [pull down] → INSTALL NEW FONT**

From here you would select your new file **C:\temp\NJT.ttf**

That's it, the font is installed.

As with all other TTF fonts on your system, the "**NJT.ttf**" file enclosed within the ZIP file belongs in the **FONTS** folder of your windows operating system. This is the only way this file would be useful.
